

Mustang Mach-E B&O Sound System

(540 Watts)

Tweeter: small speakers for high frequencies like cymbals

Midrange: medium-sized speakers for sounds like vocals and guitars

Midwoofer: larger speakers for midrange frequencies and lower frequencies like a bass guitar

Subwoofer: largest speaker for lower frequencies and deeper bass, often felt as much as heard

ECS: Externally Coupled Subwoofer (uses cabin as sub enclosure rather than its own box)

DSP: digital sound processor
